MANUFACTURING MANAGEMENT SOLUTION
FOR MICROSOFT DYNAMICS 365

Annata 365 for Dynamics is a modern cloud-based management solution that meets today's and future business and operational needs for the manufacturing industry.

ANNATA 365
FOR DYNAMICS

Annata 365 for Dynamics is a management solution fully integrated with **Microsoft Dynamics 365**, using the standard features of Dynamics for Operations, as well as additional features specially designed to support the material handling, construction, agriculture and equipment manufacturing companies. It handles all key business processes during the entire equipment's life-cycle "from cradle to grave".

Configuration → **Production** → **Sales** → **Service** →

WHAT DO YOU GAIN?

- **Functional fit** solution out of the box for **your industry** needs.
- Facilitating your **digital transformation.**
- Certified **future proof solution** through Microsoft Certified programs (CfMD).
- Full integration of **all key business processes** driven by industry specific needs and developed by experts.

- Mostly replacing high number of bespoke **nonintegrated systems.**
- **Process automation** needs, work-flows and **process alerts.**
- **Strong references** around the world to back claims.
- **Powerful,** but easy to use analytic tools.

ANNATA 365
FOR DYNAMICS

CONFIGURATION

Advanced configuration
Configure vehicles individually using the specially designed vehicle/equipment configuration: with predefined variants, options, components, accessories, etc.

PRODUCTION

Information tracking
Track all vehicle/equipment related transactions/information throughout the entire life-cycle.

Clear document supervision
Create documents using predefined templates and controls visibility across multiple locations.

Vehicle/Equipment creation

SALES

Loans
Manage vehicle/equipment loans, calculate interest rates and create collections.

Spare parts management
In addition to the storage management features, use the manufacturers spare parts catalog integration together with additional functions specially designed to improve parts handling.

SERVICE

Work order management
Schedule your resources, plan work-hours and manage the allocation of service orders.

Warranty claims
Create warranty claims based on service orders and process them through to the manufacturer (interface). Streamline the process using the automatic claim validation system.

Service and maintenance of contracts
Create service/maintenance contracts and collect monthly fees.

Service campaigns
Create sales campaigns and add discounts or accessories for specific vehicles/equipment or group.

Maintenance plan templates
